

I have satallite radio both in my automobile and in my home and enjoy it very much. I get a real benefit and service from the weather and road condition reports that satallite radio provices. Please re-consider your position and allow this service for the people to continue. Representative's Picking from MD. and Green from Tx. are trying to introduce a bill, HR 4026 in Congress that would prevent satalllite radio from provilding a much needed service to the people of this great nation. Thank you,
Larry Amburgey
